Productive, sustainable and responsible agriculture is crucial in ensuring prosperity and food security now and in future. We are experts in food chain, from farm to fork. Savonia University of Applied Sciences is one of the largest Universities of Applied Sciences in Finland and Savonia's School of Agriculture and Rural Industries has wide expertise in sustainable agriculture. Our trainings can form part of the academic offer of local university or serve as staff trainings for companies. Trainings are tailor made to serve the needs of different food chain actors. We give the tools necessary for lifelong learning: critical and creative thinking and collaboration and communication skills.

Trainings tailored to the needs

- ◆ The whole package, a module or a part of the module can be chosen
- ◆ Length and contents of the trainings are tailored to fit the needs

Courses are held where needed

- ◆ Our trainings can be held in Finland or abroad
- ◆ Training can be held also online
